ALLEN L. WOOD

HISTORY tells us that many successful men and institutions have had humble origins. This is especially true of the Woodlawn Nurseries. Fifty years ago when Mr. Allen L. Wood was still a boy, he was given one acre of ground by his father. Earnings from this acre were to provide his spending money.

The Cuthbert raspberry was introduced at about that time and Mr. Wood began to grow this along with several other standard varieties. Within the next few years he began to raise fruit and Ornamental trees, shrubs, vines and roses, until he eventually had his father's whole farm under cultivation.

The Wood homestead was located on Culver Road in the midst of a beautiful three-acre lawn. This naturally suggested the name, "Woodlawn Nurseries" which is still appropriate as the business that he founded fifty years ago is still owned and managed by Mr. Allen L. Wood.

As the city of Rochester grew, this original property was finally brought within the city limits. Mr. Wood was obliged to sell his farm for city lots and he then purchased his present farms in Dansville, N. Y. The office of the Woodlawn Nurseries, however, still remains on a part of the old homestead grounds at 891 Garson Ave.

Mr. Wood is often asked to what he attributes the amazing success of the Woodlawn Nurseries—a business that extends today all over the United States, to Canada and many foreign countries. His answer has always been, "Shipping stock true to name; growing the best trees and plants, and trying at all times to please customers."

He is known to thousands as the man who originated the service of supplying stock direct from the nursery to the customer.

Mr. Wood is glad of this opportunity to extend his best thanks to his customers for advertising the trees and plants that they have purchased of him, and for helping him to build up the present extensive business.

“Wood’s Quality”

IN TREES MEANS—good fibrous roots, well-shaped heads, clean limbs and Trees true to name.

“Wood’s Quality”

IN PACKING INSURES your order getting to you in the best of condition. Small orders are carefully tied up, the tops in flag to keep the trees from bruises and the roots in damp moss, wrapped over with burlap to retain the moisture.

Large orders are packed in paper lined boxes. We use wet moss for the roots, straw for the tops. The paper lining keeps the air and frost out and the moisture in—

“Wood’s Quality.”

WHAT TO DO WITH TREES WHEN THEY ARRIVE

If possible remove the trees from the box at once on arrival and heel them in securely in the garden. We mean by this give them a temporary planting in a trench, which prevents the roots or branches from drying. If they cannot be removed from the box at once and the packing material gives evidence of being at all dry, apply water to both ends of the box, where the roots are located, keeping the box meanwhile in as cool a place as possible. A cool cellar is a good place to keep the box of trees waiting for the day of planting.

Distance for Planting

Apples, Standard	30 to 40 ft.	Grapes 8 by 10 ft.
Apples, Dwarf 8 to 10 ft.	Currants 3 by 5 ft.
Pears, Standard	18 to 20 ft.	Gooseberries 3 by 5 ft.
Pears, Dwarf 10 ft.	Raspberries, Red	3 by 6 ft.
Peaches 16 to 18 ft.	Raspberries 3 by 6 ft.
Nectarines and 16 to 18 ft.	Black 3 by 6 ft.
Apricots 16 to 18 ft.	Blackberries 5 by 7 ft.
Cherries, Sweet	18 to 20 ft.	Strawberries, 1 by 4 ft.
Cherries, Sour	15 to 18 ft.	rows 1 by 4 ft.
Plums 16 to 20 ft.	Strawberries, 1 1/2 by 1 1/2 ft.
Quinces 10 to 12 ft.	in beds 1 1/2 by 1 1/2 ft.
Asparagus, in field	1 to 3 ft.	Asparagus, 1 by 1 1/2 ft.
		in beds 1 by 1 1/2 ft.

Trees and Plants to the Acre

2 feet each way 10,890	15 feet each way 194
3 feet each way 4,840	18 feet each way 135
4 feet each way 2,723	20 feet each way 110
5 feet each way 1,742	25 feet each way 70
6 feet each way 1,210	30 feet each way 48
8 feet each way 680	33 feet each way 40
10 feet each way 430	40 feet each way 28
12 feet each way 202		

To estimate the number of plants required for an acre, at any given distance, multiply the distance between the rows by the distance between the plants, which will give the number of square feet allotted to each plant, and divide the number of square feet in an acre (43,560) by this number, the quotient will be the number of plants required.

WHY TREES DIE—The majority of trees that fail to live, die from careless or improper planting. We feel sure that if you will carefully follow the instructions as given in our little pamphlet on planting and managing nursery stock, which we send the same day as orders are shipped, your trees will grow and prove a source of pleasure and profit. Nothing flourishes with neglect. This is true with trees as well as everything else. Handle your trees carefully, plant them correctly and give them a little attention after planting, and you will be surprised at the ease with which very favorable results can be obtained.

Mulching—This is properly done by placing a layer of coarse manure, straw, marsh hay, leaves or loose chip dirt, from three to six inches deep on the surface about the tree, extending one or two feet further, in each direction, than the roots. This keeps the ground moist, of even temperature, and renders watering unnecessary. The sod which was removed in digging the hole can be used, but it should be moved occasionally to prevent it from beginning to grow again. Trees treated in this manner make a better growth and are more certain to live.

“Wood Quality”

FOR THOSE WHO WANT THE BEST—

We have made it our business for fifty years to please the public and give them the very best we could produce in the way of plants, vines and trees. Fruit growers who have seen our big blocks of Apples, Peaches, Pears, Cherries, etc., say that they are the best in the country. Not only are they large, vigorous trees, full of vitality, but they are true to name, which is one of the most important things in connection with tree growing.

TRIMMING

It is surprising how many orchards you see planted out with the young trees left with the full amount of limbs on, just as they came from the nursery. Trimming should be done either immediately before or after planting. This is the most essential work next to planting, and the lack of severe trimming is why many do not succeed. Do not be afraid that you are going to trim your trees too severely. Peach trees require more severe trimming than anything else. By the accompanying drawing we endeavor to show how a young tree should be trimmed and planted. Trim the young tree the way you want it to grow. If a low headed tree is preferred, cut back the top leaving such limbs as you may want. In the drawing we have shown the most popular way of trimming young trees. This generally gives a medium height tree very well formed. The cross

lines marked “A” on the limbs show where the cut should be made. The two lower limbs are too low to be left on and should be cut off close to the trunk as marked by the lines “A”. If more attention is given to the planting, trimming and care of nursery stock, the grower will have better results.

INFORMATION FOR CUSTOMERS

BE SURE TO READ THIS PAGE—IMPORTANT

OUR CATALOG

In presenting this 50th edition of our catalog we extend thanks for your past patronage and assure you, and all customers, of prompt and careful attention to all inquiries and orders with which you may favor us.

RELIABILITY

For fifty years we have devoted our time to the growing of high grade nursery stock and have built up a business that enables us to list ourselves among the foremost nurserymen in the country. As to our reliability, we are pleased to refer you to Dun's or Bradstreet's or any bank or business house in Rochester.

HOW TO ORDER

In making out your order, be particular to specify just what is wanted. Your name, postoffice and shipping point should be written plainly to avoid mistakes. If you are in doubt as to whether your stock should go forward by express or freight, you may leave it to us and we will use our best judgment.

PARCEL POST

Small packages can be forwarded by parcel post. POSTAGE is required on orders to be sent by parcel post. Strawberries should be sent either by express or mail—not freight. SEND PAYMENT WITH ORDER. All orders are acknowledged immediately upon receipt.

PACKING

OUR PACKING CELLAR, covering over one acre of ground, and in which the sun or the wind cannot dry up the roots of stock, is where all our orders are packed. Care is given to the packing of each order, which enables us to get your stock to you in fresh condition.

Small orders are carefully tied up, the tops in flag (see page two) to keep the trees from bruises and the roots in damp moss wrapped over with burlap to retain the moisture. Large orders are packed in paper lined boxes (see page two). We use wet moss for the roots and straw for the tops. The paper lining keeps the air and frost out and the moisture in.

SHIPPING

We do not charge for packing, boxing or delivering to freight offices or express companies. We do not prepay charges, unless goods are to be delivered to a prepaid station, as all our prices and quotations are FREE ON BOARD CARS AT OUR NURSERIES. If there is no agent at your station, and shipment has to be prepaid, notify us and we will prepay charges and bill you for same after shipment is made.

SHIPPING SEASONS

The spring shipping season usually commences here about March 1st, and continues until about May 15th. Of course, the time of shipping your stock depends on your location. We commence making Southern shipments about January 1st. Our fall season commences about October 15th, and we continue to make shipments until the ground freezes. We advise spring planting for Berry plants and Peach trees.

HOW TO REMIT

Remittance should be made by check, post-office money order, express money order or draft on New York bank, or registered letter.

RATES

Five trees or more at ten rate.
Fifty trees or more at hundred rate.
Four hundred trees or more at thousand rate.

TERMS

Cash with order, except in large orders, when satisfactory reference is given. We will ship trees and plants C. O. D. if 25% of the total amount of your order is sent in cash. The balance to be collected on delivery of stock.

GRADING

We guarantee every Tree, Plant, etc., to be up to grade specified or better. All our Fruit Trees are graded by height and caliper.

OUR TWO-YEAR-OLD BLOCK OF SOUR CHERRY TREES
WE GUARANTEE ALL OUR STOCK TRUE TO NAME
(SEE ORDER BLANK)

This Catalog Is Our Only Salesman We Employ No Agents

If we had to pay salesmen's commissions, salaries and traveling expenses, we could not afford to sell our stock as cheap as we do, as it would add 50 to 60 per cent to the cost of same. We grow our own nursery stock and sell it direct from our Nurseries to you. Our good business record is known all over the country. Agents from other Nurseries say that trees sold at our prices cannot be first class. This is what the United States Department of Agriculture says in The Farmer's Bulletin, No. 113:

"If the farmer makes his purchase direct from the Nurseryman, he will save the expense of the middleman or agent, and is less liable to the mistakes and injuries that may occur through repeated handling."

Deal direct with the grower. It's the sure way to get good stock and the only way to save money when buying trees and plants.

BE SURE TO READ PAGE 4 BEFORE ORDERING

CERTIFICATE—No. 18

STATE OF NEW YORK
DEPARTMENT OF FARMS AND MARKETS
BERNE A. PYRKE, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of Allen L. Wood of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Article 14 of the Farms and Markets Law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1926.

Dated, Albany, N. Y., September 1, 1925.

BERNE A. PYRKE, Commissioner.

By GEORGE G. ATWOOD,
Director, Bureau of Plant Industry.

SUMMER VARIETIES

Early Harvest—Medium size pale yellow.
Red Astrachan—A very handsome summer variety, rather acid in flavor.

Yellow Transparent

Yellow Transparent — Earliest of all Apples. Color when ripe pale yellow; mild, yet of sprightly flavor; good quality and of decided merit. Tree bears abundantly at a very early age. Three year trees frequently produce fine fruit. It should be in every home garden. Season, July.

AUTUMN VARIETIES

Duchess of Oldenburg — Red striped; tender and juicy. The fruit brings a high price on the market.

Fameuse (Snow Apple)—One of the finest dessert fruits. Tender and delicious.

Wealthy—Medium, roundish; skin mostly covered with dark red; flesh white. A variety of great value on account of its hardness.

See colored plate page 9.

WINTER VARIETIES

Delicious—Fruit large, nearly covered with brilliant dark red; flesh finely grained, crisp and melting, juicy with delightful aroma; highest quality. Good keeper and shipper.

McIntosh Red—A very attractive Apple, deep red color; uniform size. Flesh white, firm, crisp and tender. Season, October until May. Vigorous grower; bears within four or five years. McIntosh brings a good price on the market and makes a profitable investment for the fruit grower.

See colored plate page 9.

Grimes Golden—Beautiful, rich, golden-yellow Apple; flesh tender, juicy.

Baldwin—Leading commercial variety in the orchards of New York, Pennsylvania and Ohio. The standard fruit in the American markets and one of the leading Apples used in cold storage for the export trade. Large, red, winter Apple and very desirable on account of size, color and quality. Fruit keeps in common storage until April.

Baldwin

WINTER VARIETIES—Cont'd

King—A superb red Apple of the largest size and finest quality.

Northern Spy—The fruit is large and attractive, being of a bright red color. Flesh is very juicy, crisp and tender. This variety ranks about third in commercial importance.

Jonathan—Medium size; brilliant red, highly and deliciously flavored. Hardy, productive, healthy and vigorous; bears young.

North Western Greening—Fruit large, greenish-yellow, juicy and sub-acid. Productive.

Rhode Island Greening—Highest quality. Ranks next in popularity to Baldwin.

Rome Beauty—Large, uniform sized Apple; flesh nearly white, fine-grained and juicy.

Smokehouse—Fruit medium to large, uniform size and shape. Color yellow or greenish mottled with rather dark red.

Stark — Large, striped yellow and red; delicious flavor. Very productive.

Ohio Beauty

One of the Finest Apples in the World.

Ohio Beauty—Exceptionally large; yellow or greenish blush, striped with red. Crisp, tender, juicy and sub-acid. Fine eating and cooking apple. December until April. We have exclusive sale of "OHIO BEAUTY."

See colored plate on page 9.

Stayman's Winesap—Yellow striped with red; exceedingly juicy and tasty. Late keeper.

Tolman Sweet—Yellow with faint blush cheek; valuable sweet winter baking apple.

Wagener—Superior bright red apple. Has fine texture, high flavor and excellent quality.

Winter Banana—Large, pale yellow. Mild and sub-acid; flavored like banana.

Woodlawn Golden Pippin—One of the best varieties. Flesh firm, crisp and juicy; fine flavor.

XXX XX X
WOOD'S QUALITY APPLE TREES

Red Spy Apple, Offshoot of Northern Spy, Grown at Geneva Experiment Station, Has Perfect Coloring

—WHAT THEY SAY—

A typical Northern Spy apple with a solid, bright red color without stripes or splashes, grown on the grounds of the New York Agricultural Experiment Station at Geneva, is attracting much attention among fruit growers and is declared by all those who have seen it to be the most handsome spy ever seen. Scions of the Red Spy were received by the station horticulturists in 1910 from C. E. Green, of Victor, but the trees did not fruit until 1920. The color of the fruit is the only difference to be noted between this new sort and its parent.

"Whoever grows Northern Spy, either for profit or pleasure, should try Red Spy," says the station horticulturist. "It is true that the new variety has the serious fault of the parent, that of coming in bearing late, but there are many good characters to offset this fault. Thus, there are delectable quality and great beauty in the fruits, and in the tree hardiness, healthfulness, productiveness, and reliability in bearing to commend two varieties. Nor should it be forgotten that the trees are long-lived, nearly perfect orchard plants, and that they bloom late, thereby often escaping late spring frosts which ruin the crops of other varieties. Northern Spy is still one of the best apples for New York, and Red Spy, with its beautiful fruits, will give life to this sort."

WOODLAWN NURSERIES are the first to offer this valuable Apple.

See colored plate page 9.

Two year Trees \$1.00 each

DWARF APPLES

Budded on Paradise stock imported from France. They commence to bear fruit the second year after planting; especially desirable for village or city garden. We have the following varieties:

WILMA
NEW LATE PEACH

WOOD'S CHOICE PEACHES

NEW WILMA PEACH IS REPORTED AS ELBERTA RIVAL

Geneva Station Says, Wilma, Yellow-fleshed Variety Fills Long Felt Need.

Geneva, March 30—The new peach for which fruit growers of New York State have been looking has been discovered in the Wilma, a yellow-fleshed variety that will rival the favorite Elberta, say horticultural experts at the New York State Agricultural Experimental Station here. The new variety gains double favor by ripening a week following the Elberta season.

Wilma was developed by W. C. Rofkar of Port Clinton, Ohio, but its production is admirably suited to the state. The trees are vigorous, productive, and hardy enough to withstand the coldest Winter recorded in half a century in New York State.

The fruit is as large as Elberta, about the same color, and of better quality, says the local station. It is destined to become a strong favorite in the peach industry of this state, say the horticulturists.

Our stock of Wilma is limited.

See colored plate page 10.

Prices same as Dr. Worcester.

A 16-YEAR OLD DR. WORCESTER PEACH TREE

This Photograph of Dr. Worcester and one of his famous Peach trees was taken about a month before the fruit was fully ripened.

Branch from a Wilma Peach Tree

"DR. WORCESTER"

"The 20th Century Peach"

The DR. WORCESTER Peach is of a very large size, color is a beautiful golden yellow, overlaid with red. Flesh is yellow, firm and juicy, and the flavor, which is its chief merit, is rich and sweet. Skin is firm, making it a good shipper and keeper. Tree is hardy and a late bloomer, so late frosts seldom injure it. It is a healthy, vigorous grower and good bearer. These qualities make the DR. WORCESTER Peach a most valuable commercial variety.

For the past two years we have refused several hundred orders for the Dr. Worcester Peach, and refunded several hundred dollars after we were sold out. We have the exclusive sale of "DR. WORCESTER" Peach trees, each tree or bundle of trees we sell has a special Guarantee Seal attached to it.

Reine Claude

Reine Claude—A delicious greenish-yellow Plum, spotted with red. It is of the finest quality, beauty and size, the housewife's ideal Plum for canning and preserving. Ripens in September.

Bradshaw—Very large, dark violet-red plum; juicy and good. Productive and valuable for market.

Abundance—One of the best Japan Plums. Fruit large, bright cherry-red; flesh yellow, firm, juicy.

Burbank—Resembles Abundance, except it is deeper in color and ripens later. Hardy. August.

German Prune—Large purple plum; rich, juicy, fine. Good for drying and therefor commercially desirable. Great favorite.

Lombard—Medium, dark red; juicy. Wonderfully early bearer, strong grower and hardy.

Apricot Trees

Two years XXX Grade	\$1.25 each
Two years XX Grade	1.00 each

Moorpark

Moorpark—One of the largest. Yellow with red cheek, firm, juicy and very productive. An old and dependable variety. August.

CHERRY

THE CHERRY, being a very hardy tree, will thrive nearly on any good soil, but does best in a warm, dry, sandy, gravelly or clay loam. The most important thing is to have the soil dry; no other fruit is so greatly injured by excessive moisture as is the Cherry.

The Cherry is one of the most profitable, if not the most profitable, of all the fruits that are grown. More and more the fruit growers of the country are taking up its culture and enormous profits are being realized from young orchards.

This variety of fruit tree requires so little care and cultivation that there is practically no cost of labor to keep up an orchard. Hence greater profits from the fruit.

Cherries are divided into two classes, sweet and sour. The sweets attain a larger size than the sours, but are not as hardy and are more likely to be injured by severe Winters and are harder to transplant.

PRICES OF SOUR CHERRY TREES

All Budded on French Stock

	Height	Grade	Each	Ten	Hundred

8% Discount on all Cash Orders for Cherry Trees received on or before March 27th. After that date 3% Discount on all Cash Orders.

Montmorency

SOUR CHERRIES

Montmorency—A beautiful, large, red sour Cherry. The fruit is clear, bright red and of good size. Flesh is of fine quality, sub-acid. The trees are clean growers and prolific bearers. No matter how unfavorable the season may be, Montmorency can be depended upon for a full crop. It is a good shipper, very attractive looking and always brings good prices. The canning factories use large quantities of them and the demand is greater than the supply. Fruit ripens ten days later than Early Richmond.

Early Richmond—One of the most valuable and popular Cherries for cooking purpose. A good old variety that yields marvelous crops in the garden. This hardy Cherry fruits on young trees soon after planting. Early Richmond is a great favorite throughout the West and Northwest, where only hardy varieties succeed. The tree is a free grower; hardy, healthy and very productive. Hundreds of tons of Early Richmond Cherries are now used in making Cherry wine. This is a new market for Sour Cherries which will keep the price of Cherries up. Some growers got ten to twelve cents per pound for their crop last year.

English Morello—Best late sour Cherry, very dark red color, sometimes nearly black. Tree is small grower. Fruit ripens about two weeks later than Montmorency.

THERE IS MONEY IN CHERRIES

A two-year-old Cherry Tree will bear a gallon of Cherries. A ten-year-old tree will bear from 100 to 200 lbs. One acre will grow 100 trees, figuring 150 lbs. to the tree this acre will produce 15,000 lbs. If sold at 7c per lb., will bring a return of \$1,050 per acre.

WHY NOT PLANT CHERRIES?

SWEET CHERRY TREES

Sweet varieties of Cherries succeed best in sandy or gravelly soil, well drained. Avoid low or wet ground. They make very large spreading trees.

PRICES OF SWEET CHERRY TREES

8% Discount on all Cash Orders for Sweet Cherry Trees received on or before March 27th. After that date 3% Discount on all Cash Orders.

Black Tartarian

Black Tartarian—Early to middle of June. Fruit very large with small pit; heart-shaped, very dark, almost black; tender, juicy Sweet Cherry of surpassing quality, excellent for table use and canning, the tree is an upright, dense grower, remarkably vigorous and regular bearer of immense crops.

Gov. Wood—One of the best cherries; fruit large, yellow, nearly covered with bright red. Flesh, light, tender and juicy. "Has a taste all of its own." We like it—so will you.

Napoleon—Sometimes called Royal Ann. An ideal light-colored sweet cherry; Very attractive coloring with pale amber cheek, fruit large, heart-shaped; flesh firm, and of delightful flavor. Splendid shipper and fine for canning. Tree is a fine grower and immense bearer.

Schmidt's Bigarreau—Very large cherry, sweet, of especially good flavor. The flesh is dark, tender and very juicy. It is an excellent shipper and brings good money on the market. Late.

Windsor—The standard of excellency. The hardest of the sweet varieties. Large, very dark red, with firm, tender, juicy flesh. Prolific bearer.

Bartlett

Bartlett—Best and most popular of all pears for market and home use. Color clear yellow with a faint blush on exposed cheek. Fruit very large, thin skinned; flesh buttery and melting, rich musky flavor. Its splendid qualities render it a general favorite everywhere. Tree strong grower, bears young and abundantly. August and September.

See colored plate page 9.

Beurre d' Anjou—Great money maker. Fruit large, buttery and melting; good keeper.

Clapp's Favorite—Very large; pale lemon-yellow color, with bright crimson cheek. Flesh finely grained, juicy, melting and buttery. Earlier than Bartlett. August and September.

Seckel—Fruit small; skin rich yellowish brown, with a deep brownish red cheek. Very juicy; one of the richest and highest flavored pears known. September and October.

DWARF PEARS

All Budded on Imported French Quince Stock

Largest Size—2 Years

8% Discount on all Cash Orders for Dwarf Pear Trees received on or before March 27th. After that date 3% on all Cash Orders.

Bartlett—Dwarf similar to standard variety.

Clapp's Favorite—Good dwarf variety.

Seckel—Valuable in standard and dwarf variety. Fruit same on either tree.

Duchess—Most popular of all dwarfs and most widely grown. Great money getter. Hardy and bears uniformly big crops. Fruits large; color dull greenish yellow, spotted with russet, flesh white, rich and of good quality.

Duchess

WOOD'S GRAPE VINES

ARE TWO YEARS OLD, EXTRA STRONG

Every city and country garden should have a dozen or more Grape vines. They can be trained up the side of any building or along the garden fences, occupying but little room and furnishing an abundance of the healthiest fruit.

Worden

Lucile

Niagara

Concord

FOUR BEST STANDARD GRAPE VINES

Price of Two-Year-Old Vines; (except otherwise noted):

35c each; \$3.00 per 10; \$20.00 per 100

If sent by Parcel Post add 5c each; 25c per 10

Agawam—Dark red. Large bunch and berry; sweet and aromatic; vigorous and productive.

Concord—There are more Concords planted by vineyardists than all other varieties combined. Berries large, black, covered with a rich bloom.

25c each; \$2.00 per 10; \$15.00 per 100.

Lucile—Bright Red. It is very hardy and vigorous. Bunches and berries medium to large. This variety is a very good shipper.

35c each; \$3.00 per 10; \$25.00 per 100.

Moore's Early—Bunch large berries black with a heavy blue bloom; quality better than the Concord.

35c each; \$3.00 per 10; \$25.00 per 100.

Niagara—Berries white, larger than Concord, sweet to center. Skin thin but tough. Ripens before Concord.

Worden—Berries are black and larger than the Concord. Ripens a few days earlier and is superior to it in flavor.

RHUBARB (Pie Plant)

Two-year-old plants

Strawberry Rhubarb all the year

Wood's Strawberry Rhubarb

You can have Early Strawberry Rhubarb throughout the entire year. Cut stalks of young Rhubarb into small pieces. Put these into fruit jars. Fill jar with cold water and seal up tightly. This will keep you in fresh Early Strawberry Rhubarb the entire year.

Different ways of serving Early Strawberry Rhubarb—pies, cakes, sauces, jellies, puddings, etc.

Price of

Two-year-old plants
20c each; \$1.50 per 10; \$10.00 per 100.

If sent by Parcel Post add 5c each; 25c per 10.

8% Discount Allowed on Fruit Trees Only

Wood's Improved Cuthbert

RASPBERRIES

RASPBERRIES hold a prominent place among small fruits. They do well in almost any soil and require but little care and attention.

PRICES OF RASPBERRY PLANTS

2 for 25c; \$1.00 per 10; \$1.50 per 25; \$4.00 per 100; \$25.00 per 1000. If sent by Parcel Post add 10c per 10; 20c per 25.

BLACK RASPBERRIES

Plum Farmer—Has been thoroughly tested in Western New York, where it is a great favorite for market and home use. Fruit very large, often measuring an inch in diameter. Brings the highest price on the market.

Black Diamond—One of the best for home and market use. For drying and evaporating it excels all others. Fruit large, sweet and excellent.

RED RASPBERRIES

St. Regis—A new acquisition to the Red Raspberry family. Fruit commences to ripen with the earliest and continues on young canes until October. Large, bright crimson; flesh firm and meaty. Good shipper and very prolific.

Columbian—Purple berry; of rich sprightly flavor. It is undoubtedly the best raspberry in cultivation for canning as it retains its color, form and flavor.

Herbert—Ripens before Cuthbert. Hardy; strong canes and healthy foliage. Berries bright red, sweet, and of large size; heavy bearer.

Cuthbert—Large red berry; flesh firm and of rich flavor. We recommend it for either home use or field culture as it is one of the leaders on all markets.

BLACKBERRIES

Prices of Blackberry Plants

2 for 35c; \$1.25 per 10; \$2.00 per 25; \$5.00 per 100; \$40.00 per 1000

If sent by Parcel Post add 10c per 10; 20c per 25.

Eldorado

Eldorado—A valuable variety; medium size, jet black, melting, sweet and rich; hardy and very productive.

Blower—"The giant of all blackberries." An upright grower; very hardy and enormously productive. Commences to ripen about the middle of July and bears until frost.

All our Raspberries and Blackberries have been inspected by the New York State Inspectors and found to be free from infectious diseases.

CURRENTS AND GOOSEBERRIES

CURRENTS and GOOSEBERRIES fit into your house-garden, or you should give them a place in your back yard—their fruit is very desirable for home use.

CURRENT

PRICE OF 2-YEAR-OLD BUSHES

Except otherwise noted

35c each; \$2.50 per 10; \$20.00 per 100

If sent by Parcel Post add 5c each; 25c per 10.

Wood's Improved Cherry—A strain of the original Cherry which we have greatly improved upon. It is larger, has better bunches, and is a stronger grower. Fruit is large, deep red and sub-acid.

Perfection—Won the Barry \$50.00 Gold Medal of the Western New York Horticultural Society, the Pan-American Exposition Medal, and the Gold Medal at the St. Louis Exposition of 1904. The color is a beautiful bright red; clusters long; large size berries.

ASPARAGUS (2 yrs. old)

To make a good Asparagus bed, prepare a plot of fine, loamy soil, to which has been

added a liberal dressing of good manure. Set the plants 12 inches apart in the row and the rows 20 inches apart.

Price 85c per 25; \$2.00 per 100; \$15.00 per 1000.

If sent by Parcel Post add 5c per 10; 15c per 50; 25c per 100.

Barr's Mammoth—Robust and vigorous and throws large shoots which remain white above ground as long as they are fit for cutting.

Conover's Colossal—This variety is remarkably tender and finely flavored.

Palmetto—An early and great yielder and very even and regular in growth. It has been tested both North and South and has proved entirely successful in every way.

Perfection

GOOSEBERRIES

PRICE OF 2-YEAR-OLD BUSHES

35c each; \$3.00 per 10; \$25.00 per 100

If sent by Parcel Post add 5c each; 25c per 10.

Pearl—This variety bears a great resemblance to the Downing, but is superior in size and quality. It is very hardy; free from mildew and the most productive of all varieties.

Josselyn—Fruit red, large size, smooth, of best quality. Has been tested over a wide extent of territory by the side of all the leading varieties, and so far is free from mildew, both in leaf and fruit. A wonderful cropper, with bright, clean, healthy foliage.

STRAWBERRIES

Price, 50c per 12; \$1.00 per 25; \$2.00 per 100; \$10.00 per 1000

By mail—55c per 12; \$1.10 per 25; \$2.25 per 100.

Monroe—We are proud to say that we introduced the "MONROE," which has made a record for itself. The berry is deep red, not red in spots, as on some varieties, but red all around, making it a very handsome fruit. It is finely grained, very firm and red to the core. The flavor of the "MONROE" surpasses that of any other Strawberry.

Parson's Beauty—A good grower and an immense cropper of large, solid berries of good form, bright red and firm, but its chief point of merit is its enormous crop of fruit.

Barr's Mammoth

**Before Placing Your Order
See Our Special Bargain
Collections on Page 16.**

NEW YORK STATE GROWN NUT TREES

English Walnut

English Walnut—An exceedingly handsome tree for the lawn. It produces large crops of thin shelled, delicious Nuts which are always in demand at good prices. The English Walnut can be grown in the Eastern and Northern States, as well as in California and the South. There are several large orchards of English Walnuts in the vicinity of Rochester, N. Y., which produce good crops every year. We have three English Walnut trees on one of our farms, which are over 40 years old.

1½ to 2 ft. \$.75 each; \$ 6.50 per 10
2 to 3 ft. 1.00 each; 8.50 per 10
3 to 4 ft. 1.75 each; 15.00 per 10

Butternut

Butternut—Produces large, handsome, elongated Nuts with rich, sweet, oily kernel; very nutritious. Cultivation increases the size of the Nuts. The tree grows rapidly and yields large crops in a few years.

4 to 5 ft., \$1.00 each; \$9.00 per 10

Japan Walnuts picked from a six-year old tree

Japan Walnut—A choice improved variety, grows with great vigor, forming a handsome head without pruning; has withstood a temperature of 20 degrees below zero without injury. The shell is a little thicker than that of the English Walnut, which it resembles in a general way; kernels are meaty, delicate and can be removed entirely. Tree begins to bear when 2 or 3 years old.

3 to 4 ft., \$1.00 each; \$9.00 per 10

Black Walnut

Black Walnut—Bears a heavy crop of large round Nuts of excellent quality. They are much relished and bring a good price on the market. The tree is a rapid grower, attaining a large size and majestic form; has beautiful foliage. Very valuable for its timber, which enters largely into the manufacture of fine furniture and cabinet ware.

5 to 6 ft., \$1.00 each; \$9.00 per 10

ORNAMENTAL TREES

WELL-KEPT grounds, which necessarily include fine Shade Trees, flowering Shrubs, Vines and Roses, are naturally a great source of pleasure to a property owner. They also greatly enhance the value of property. A relatively small amount invested in ornamentals will bring a big return should you wish to dispose of your property. Nor does it require a big outlay of money to make your property beautiful by such ornamentation. The Trees and Shrubs, etc., of course should not be planted haphazardly. Great care should be exercised in the planting of Shade Trees. All planting ought to be done with reference to the character and position of the house, care being taken not to obstruct sightly views, but unsightly views should be screened.

Avenue of Norway Maples

Norway Maple trees are perhaps the most important feature in the making of a proper planting for a beautiful street. They are recommended by the Shade Tree Commissioners for street and park planting.

- A—Denotes trees which attain 50-70 ft. in height.
 B—Denotes trees which attain 20-40 ft. in height.
 C—Denotes trees which attain 8-15 ft. in height.

Maple, Ash-Leaved or Box Elder (B)—A fine rapid growing variety, with handsome, light green foliage and spreading head; very hardy; desirable for street planting and succeeds in many sections where other varieties do not thrive.

8 to 10 ft. \$1.75 each; \$16.50 per 10
 10 to 12 ft. \$2.50 each; \$24.00 per 10

Maple, Norway (A)—The compact, vigorous nature of this tree renders it desirable for the street or lawn. The growth is fairly fast, the head massive and rounded, with broad, rich green foliage. This distinct foreign variety is highly recommended by the Shade Tree Commissioners for street and park planting.

8 to 10 ft. \$3.00 each
 10 to 12 ft. 3.50 each

Maple, Sugar or Rock (A)—Very popular American tree valuable for its production of sugar and wood. Very stately in form, rapid grower and has fine foliage. Valuable ornamental variety. Adapts itself to any soil, but is a good tree to plant in a stiff, clay soil.

8 to 10 ft., \$2.00 each; 10 to 12 ft., \$3.00 each

Mulberry, Downing (B)—Berries very large, black and of excellent quality. Should be in every garden. Very valuable when planted near a Cherry orchard, as the birds will eat this fruit instead of the Cherries.

5 to 6 ft., \$1.00 each

April 25, 1925

71 Henry St., Norwich, N. Y.

Woodlawn Nurseries,
 Rochester, N. Y.

Dear Sirs:

Nursery stock was well packed and was received in good condition.

I wish particularly to mention the straight, symmetrical, Silver-Leaved Maple. If it does not make a beautiful tree it will not be your fault.

Other stock was well rooted and entirely satisfactory.

Yours very truly,

(Signed)

W. E. STOVER.

Silver-Leaved Maples

Maple Silver Leaved or Soft Maple (A)—Beautiful ornamental tree, in great demand for street, lawn and park planting. Easy to transplant; fast grower, thrives equally well in drained or low, swampy locations.

8 to 10 ft. \$1.50 each; \$12.00 per 10
10 to 12 ft. 2.00 each; 18.00 per 10

Wier's Cut-Leaved Maple

Maple Wier's Cut-Leaved (A)—One of the most remarkable and beautiful trees, with cut or dissected foliage. Growth rapid, shoots slender and drooping, giving it habit almost as graceful as cut-leaved Birch.

7 to 8 ft., \$2.00 each; \$17.50 per 10

American Linden or Basswood

Linden, American (B)—Unusual stately beauty. Foliage luxuriant and curious cream colored flowers have a delightful fragrance. Blooms in July. Growth rapid and upright.

8 to 10 ft. \$2.50 each; \$23.00 per 10
10 to 12 ft. 3.00 each; 28.00 per 10

Bechtel's Double-Flowering Crab

Bechtel's Double-Flowering Crab (C)—One of the most beautiful of the many fine varieties of the flowering crabs. Tree medium size, covered in early spring with large, double, fragrant flowers of a delicate pink color. From a distance they have the appearance of roses.

2 to 3 ft., \$1.00 each; 3 to 4 ft., \$1.50 each.

Purple-Leaved Plum (*Prunus pissardi*)

Plum, Purple-Leaved (*Prunus pissardi*) (B)—Finest purple-leaved small tree of recent introduction. Young branches are very dark purple; leaves when young are lustrous crimson, changing to dark purple, and retain this beautiful tint until they drop.

4 to 5 ft., \$1.25 each

Lombardy Poplar

Poplar, Lombardy (A)—Well known for its erect, rapid growth and commanding form. Desirable on large grounds, or along roads. Planted as a screen or for a wind-break.

8 to 10 ft., \$1.00 each; \$ 8.50 per 10
10 to 12 ft., 1.25 each; 10.00 per 10

American Elm, Finest Street and Shade Tree

Elm, American (A)—The Elms are so well known that it is unnecessary to refer to their beauty and value for ornamental planting. We grow the American on an extensive scale for street and park planting.

8 to 10 ft., \$2.00 each; \$17.50 per 10
10 to 12 ft., 2.50 each; 24.00 per 10

Carolina Poplar

Poplar, Carolina (A).—Rapid grower. Large leaves, glossy, deep green. Valuable where shade is desired quickly. Useful as a screen or as windbreak for an orchard.

8 to 10 ft., \$1.00 each; \$ 8.50 per 10
10 to 12 ft., 1.25 each; 10.00 per 10

Tea's Weeping Mulberry

Mulberry, Tea's Weeping (C)—One of the finest, most graceful and satisfactory of weeping trees. Umbrella shaped head, with slender, willowy branches drooping to the ground. It has beautiful, glossy foliage, handsomely cut or divided into lobes. Perfectly hardy. \$3.00 each.

Two-year heads, extra large.

Camperdown Elm

Elm, Camperdown (Weeping Elm) (C)—One of the most graceful of all weeping trees, having large, luxuriant and deep green foliage; well adapted for planting on lawns or in parks or cemeteries; very desirable. A rapid grower. \$3.00 each.

Two-year heads, extra large.

BEAUTIFY YOUR GROUNDS

An attractive and harmonious planting of shrubbery greatly improves the appearance of a home, and incidentally a community. A few shrubs around the porch, at the corners and along the sides of a home give a wonderful effect. People desire to live in a neighborhood where the grounds are well kept. Everyone who beautifies his own grounds, not only adds to his own pleasure, but helps create a love of beauty in others, in the community. Cultivate the community spirit; get your neighbors interested.

Catalpa, Bungeii each side of walk

Catalpa, Bungeii (Umbrella Tree) (C)—Grafted on stems 6 to 8 ft. high, it makes an umbrella-shaped top without pruning; perfectly hardy. Leaves large, glossy heart-shaped, deep green. One of the most unique trees; desirable for lawn, park and cemetery planting or for each side of a driveway. \$2.00 each.

Two-year heads, extra large.

Willow, Babylonica (A)—Well known, weeping variety; forms a large, round-headed, graceful tree. It does not require much attention and succeeds well in rather wet soil. Very desirable. 6 to 8 ft., \$2.00 ea.

April 28, 1925
Spencer, Mass.

Mr. Allen L. Wood,
Rochester, N. Y.

Dear Sir:

Your trees received April 14th, in good condition. Trees were of A 1 quality very well rooted, much larger and better than my neighbors purchased of Agents.

Two Weir Cut Leaf Maples I purchased of you Spring of 1918 are today more than thirty feet high and admired by all who see them. Many thanks.

Very respectfully yours,

(Signed) ERNEST F. ALIX.

EVERGREEN PLANTING ON DRIVE

EVERGREENS

Evergreens are beautiful all the year and form grand specimens in time. We strongly recommend to our customers to plant more largely of the hardy sorts. In the following list we confine ourselves strictly to perfectly hardy species and varieties, such as are most useful for general planting. In transplanting Evergreens, so much depends upon the care of the planter in protecting roots from the air and sun that we cannot guarantee them further than that delivery shall be made in first-class condition. We recommend spring planting for Evergreens.

We have the Finest and Largest Collection of Choice Evergreens in the Country
They are dug with ball of earth, and roots wrapped in burlap.

ALL SPECIMEN PLANTS

Red Cedar—(Virginiana). A well known American tree, with fine dense foliage varying in habit and color, the majority being formal and bluntly conical, others loose and irregular.

3 to 4 ft. \$5.00 each

Colorado Blue Spruce

Juniper Pfitzeriana—A beautiful new Evergreen of spreading, graceful habit, with silvery green color. Both the main stems and lateral shoots have a light, feathery appearance. Distinctive and charming.

2 to 3 ft. \$7.00 each

COLORADO SPRUCE

Colorado Blue Spruce—Wonderful Ornamental tree; silvery blue luster, perfection in form and symmetry. Its hardy characteristics make it adaptable to nearly all climates. Very effective as a specimen, in groups by itself, or in groups with other Evergreens. Needles rather short and stiff.

15 to 18 inches \$3.00 each

18 to 24 inches 5.00 each

Colorado Spruce—Some of our most beautiful Colorado Spruce are too dark in color to be called Shiners. These trees are symmetrical and well formed, but a little more green in color than the Colorado Blue. They are naturally of a broad, pyramidal habit, with compact growth; one of the best trees for landscape work.

15 to 18 inches \$2.00 each

Retinospora Aurea

Retinospora Aurea (Golden Japan Cypress)—One of the few really golden Evergreens. A plant of great beauty. Foliage soft plume like; close and compact habit. Striking and useful in many ways.

2 to 3 ft. Specimens \$7.00 each

Retinospora Plumosa—An exceedingly handsome Evergreen from Japan with feathery, light green foliage, more beautiful than a fern. Compact habit.

2 to 3 ft. Specimens \$7.00 each

Strobus White Pine—The most ornamental of all our native pines; foliage light, delicate or silvery green; flourishes in the poorest soils.

5 to 6 ft. Specimens \$8.50 each

Plant Evergreens for winter effect. They retain their foliage and liven up the landscape when other things are dormant.

MUGHO—Dwarf Mountain Pine

Mugho — Dwarf Mountain pine. Low, dense and spreading in growth, usually broader than its height. One of the most attractive and valuable of our dwarf Evergreens.

12 to 15 inches \$ 4.00 each

18 to 24 inches 6.00 each

2 to 3 feet 10.00 each

Savin Juniper

Savin Juniper—A low spreading tree, with handsome, dark green foliage. Very hardy and suitable for lawns and around porches. Can be pruned to any desired shape.

2 to 3 ft. \$6.00 each

Pyramidal Arbor Vitae—One of the most beautiful varieties, very erect and regular in form, resembling the Irish Juniper; foliage a deep green color, well retained in winter; perfectly hardy. Unlike the Juniper it is easily transplanted and sure to give satisfaction.

2 to 2½ ft. \$4.00 each
3 to 4 ft. Specimens 8.00 each

Chinese Biota Arbor Vitae—The flat growth of the young branches, and its dense foliage with bright green color, makes it most beautiful and very valuable.

2½ to 3 ft. \$5.00 each

Thuya American Arbor Vitae

Thuya American Arbor Vitae—Erect pyramidal habit; soft, dark green foliage. Dense from ground up. Rapid grower; hardy. Excellent specimen for planting in tubs.

3 ft. \$3.75 each
3 to 4 ft. 5.00 each
5 to 6 ft. 12.00 each
6 to 7 ft., Heavy Specimens 15.00 each

Siberian Globe Arbor Vitae

Siberian Globe Arbor Vitae—A superb variety; somewhat similar to American, with heavier and fuller foliage and more compact habit. It holds its color during winter and bears trimming well. One of the hardiest.

18 to 24 in. \$5.00 each
24 to 30 in. Specimens \$7.00 each

Globe Arbor Vitae—Forms a natural Evergreen globe or ball without any trimming; very pretty and hardy; dense in growth.

18 to 24 inches. \$5.00 each

Compacta Globe Arbor Vitae

Compacta Globe Arbor Vitae—Of dwarf, compact form; light green foliage. Neat and attractive. Useful for beds, borders or around porches. 15 to 18 in., \$4.00 each.

Woodlawn Grass Seed Mixture

We take special pride in our Famous Woodlawn High Quality Grass Seed Mixture. It is composed of the very best grades of Blue Grass, Red Top, White Clover and other desirable varieties; no cheap or light seed of any description is used.

If the right kinds of grasses are used in correct proportions they will produce a thick sod of rich, deep green, throughout the entire growing season. We carry only the best quality of seed, insuring best results.

Do not mix any other grasses with our mixture. It is correctly proportioned for nearly all situations and conditions of soil.

FERTILIZER

Woodlawn Pulverized Sheep Manure

Very Best Fertilizer for Lawn and Garden

For private grounds, lawns, tennis courts, parks and golf courses, you will find our Pulverized Sheep Manure a most effective fertilizer. It is light, dry, odorless, free from seeds and all foreign matter. It will not burn the grass or plants, and quickly dissolves and disappears from the surface when your lawn and garden are watered.

Pulverized Sheep Manure will keep your lawn green and make your garden produce the finest vegetables and flowers.

5 Lbs.	\$.40	100 Lbs.	\$ 3.00
10 Lbs.75	500 Lbs.	12.50
25 Lbs.	1.25	1,000 Lbs.	20.00
50 Lbs.	2.00	2,000 Lbs.	38.00

For liquid manure, 1 pound to 5 gallons of water, used once a week. For greenhouse or house plants, mix one part to ten parts of soil.

Let Nature Beautify Your Home

No matter how elaborate or modest the home, nature can always add a finishing touch. One of the most essentials is a beautiful green lawn, which can be secured by planting Woodlawn Quality Grass Seed.

Then the careful selection and proper placing of a few Hardy Perennials, Shrubs and Annual flowers will complete the picture. Our Shrubs and Perennials are listed in our catalogue, commencing with Page 30.

Mr. Allen L. Wood, Rochester, N. Y. Dear Sir:	October 12, 1925 Rochester, N. Y. 98 Herald St.
---	---

For the past three years I have been using the Woodlawn Grass Seed and Fertilizer for all my Landscape work. My customers have all been very well pleased with the beautiful lawns this seed has produced.

(Signed)

Yours truly,

MR. JOHN TERBORG.

A very effective planting for the front lawn

ORNAMENTAL SHRUBS

WE would urge the most extended use of Shrubs for large and small grounds, combining, as they do, so wide a range of foliage and flower, habit of growth and season of bloom; and as they require small space for perfect development, the monotony of entirely blank lawns of even small size can be most advantageously broken and the ornamental effect highly increased by a judicious selection and arrangement of single specimen plants, small groups or masses, in proportion to the size of the grounds.

Our Shrubs are all strong, well-rooted, transplanted stock from open ground. Once carefully planted in suitable positions they increase in size and beauty from year to year, and require little further care. The time of bloom of the different sorts extends over nearly the whole season, though the greatest show is to be expected in Spring and early Summer.

If sent by Parcel Post add 5c per Shrub

D—Shrubs which attain 9 to 12 feet in height.

E—Shrubs which attain 5 to 8 feet in height.

F—Shrubs which attain 2 to 4 feet in height.

Althea, or Rose of Sharon (D)—The Altheas are fine, free-growing, flowering shrubs and are easy to cultivate. Very desirable on account of blooming in August and September, when scarcely any other tree or shrub is in blossom. We have the following varieties, at 50c each:

Lady Stanley (Double Pink)

Ardens (Double Purple)

Boule de Feu (Double Red)

Jeanne d'Arc (Double White)

Tree Althea—Same as bush, but grown in tree form, with single stem. Colors: Pink, Purple, Red, White. 3 to 4 ft., \$1.00 ea.

Flowering Almond—Flowering shrub, vigorous and beautiful; covered in May with double pink blossoms, like small Roses before the leaves appear.

3 to 4 ft., \$1.25 each

Althea, or Rose of Sharon

Snowberry

Snowberry, White (E)—Bushy form, small pink flowers in summer; quantities of large, white, waxy, roundish berries in autumn that remain on the plant through part of the winter. 50c each.

See Colored Page on back of Front Cover.

Snowberry, Red (E)—Low growing, spreading, graceful habit; foliage attractive; noteworthy for the beauty of its clusters of red berries which hang on the bush all winter. 50c each.

Golden Elder

Elder, Golden Leaved (E)—A handsome variety with golden-yellow foliage. White flowers. The berries are used for pies, jam and wine. 50c each.

SERVICE DEPARTMENT

The beauty of a planting does not depend so much on the Ornamentals used as it does on having them properly located.

PLANTING LIST.			
LIST NO.	BOTANICAL NAME	COMMON NAME	QUANT.
1	<i>Spiraea Vanhouttei</i>	VanHoutte Spirea	2
2	<i>Berberis thunbergii</i>	Japanese Barberry	10
3	<i>Symphoricarpos vulgaris</i>	Snowberry red	4
4	<i>Symphoricarpos racemosa</i>	Snowberry white	2
Additional shrubs can be added when desired.			

SUGGESTION FOR PLANTING AROUND SMALL ENTRANCE.

SCALE 1 INCH=6 FEET.

COST OF PLANTS \$8.00.

NOTE: Numbers in circles indicate single plants. The first number in each group refers to the list; the second to the estimated number of plants required.

PLAN No. 1

Deutzia, Gracilis

Deutzia, Lemoinei (F)—Pure white flowers, borne in profusion on stout branches of upright growth. Dwarf habit, free flowering. 50c each.

Deutzia, Pride of Rochester

Deutzia, Gracilis (F)—Charming species of dwarf habit; flowers pure white. Fine for growing in front of taller shrubs. 50c each.

Deutzia, Candida (E)—Pure white flowers, very double, which are so perfect in shape they are frequently used as cut flowers. 50c each.

See Colored Page on back of Front Cover.

Deutzia, Pride of Rochester (E)—Very large, double, white flowers tinged with pink in May and June. It excels in size of flower, profuse bloom and vigorous growth. The best of the Deutzias. 50c each.

SCALE 1 INCH = 6 FEET.

COST OF PLANTS \$15.

NOTE. Numbers in circles indicate single plants. The first number in each group refers to the list; the second to the estimated number of plants required.

PLAN No. 2

Cornus are very attractive when planted singly, in groups or for massing, being distinguished for their elegant foliage

Cornus, Elegantissima (Variegated Leaf) (E)—One of the finest shrubs, with beautifully variegated foliage. 65c each.

Cornus Sibirica (E)—(Red twigged Dogwood). With small clusters of white flowers; its berries and its dark red bark make it a very attractive shrub. 50c each.

Deutzia, Crenata—A tall growing variety having very double pink flowers. 50c each.

Syringa Coronarius

Syringa Coronarius (E)—Well-known old fashioned shrub, with pure white, highly-scented flowers; blooms among the earliest of the family. 50c each.

See Colored Page on back of Front Cover.

LILACS

During the last few years there have been many new varieties of Lilacs introduced. These greatly surpass the older varieties both in their color, blooming and fragrance. The list given below covers the cream of recent productions.

HIGHLAND PARK VARIETIES

Purple Lilac (E)—The well known, old-fashioned Lilac; bluish purple flowers. 75c each; \$6.50 per ten.

White Lilac (E)—Fragrant and free-flowing. 75c each; \$6.50 per ten.

Charles Jolly (C)—Very dark reddish-purple; superb. \$1.00 each.

Lilac, Chas. X

Lilac, Chas. X (E)—A rapid growing variety. Flower trusses large. Color reddish purple. \$1.00 each.

Hugo Koster (C)—Single, large individual flowers, dark reddish-purple; one of the best Lilacs grown. \$1.00 each.

Marie Legraye (C)—Large panicles of flowers. Valuable for forcing. One of the finest Lilacs. \$1.00 each.

Villosa—A species from Japan. Large branching panicles; flowers light purple in bud, white when open; fragrant. Especially valuable, as its flowers appear two weeks after those of other Lilacs. \$1.00 each.

Stephanandra Flexuosa—Attractive three foot shrub suitable for borders of other shrubs. Branches angular, even zig-zagged, with handsome deep lobed foliage which colors to purplish red; and panicked racemes of white flowers in June. 75c each.

PAEONIES

Two-year-old roots

Paeony—A noble flower almost rivaling the Rose in brilliancy of color and perfection of bloom. Hardy as an oak. In the most severe climate the plants require no protection. Each year adds to their size and beauty. Choiceest of all varieties.

Price 50c each; \$4.50 per ten.

By Parcel Post add 5c each; 35c per ten.

Festiva Maxima

Festiva Maxima—Very large snow-white, some petals crimson. Vigorous grower. Early.

Agida—Medium size, double, midseason; dark red.

Charlemagne—White; center tinted lilac; fragrant, late.

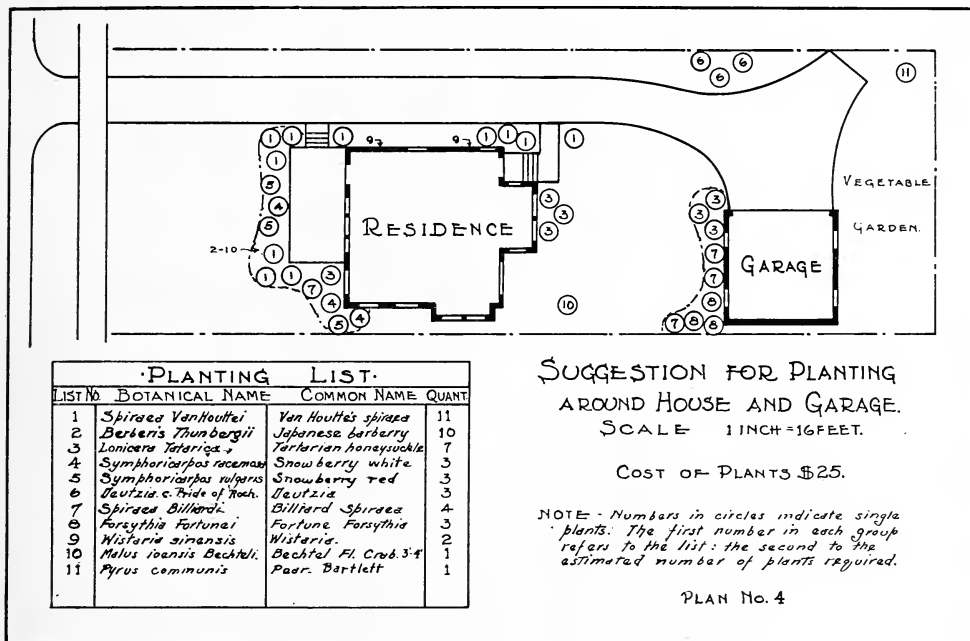

Couronne D'Or—Very double; yellowish. Grand cut-flower sort. Very late.

Edulis Superba—Large, early. Bright color mixed with lilac. Very free bloomer.

Henri Demay—Light red; large and full; fragrant, late.

Queen Victoria—Pure white, one of the best standard varieties for cut flowers.

Triumph de Lille—Shell-pink; fragrant and free bloomer.

Honeysuckle Tartarica White

Honeysuckle Tartarica White (E)—A well known shrub of erect habit. Valuable for its handsome flowers and showy fruit. Delightfully fragrant; one spray will fill a room with its delicate perfume. 50c each.

Honeysuckle Tartarica Red—A beautiful shrub; vigorous; producing large, bright red flowers, striped with white. 50c each.

Honeysuckle Tartarica Pink (E)—Has flowers which contrast beautifully with the foliage. Looks very pretty planted with the white and red varieties. 50c each.

Honeysuckle Morrowi (E) (Japanese Bush Honeysuckle)—A spreading variety which blooms early, pure white flowers; followed by pretty red berries. 50c each.

Amorpha, False Indigo (D)—Large hairy shrubs, small dark purple flowers in dense terminal panicles in July. 50c each.

Cut Leaved Sumach (E)—A very striking plant, of moderate size, with deeply cut leaves, resembling fern leaves; dark green above and glaucous below, and turning to a rich red in autumn. 75c each.

Forsythia, or Golden Bell (E)—Early and showy spring bloomer; flowers bright yellow, appearing before leaves. 50c each.

See Colored Page on back of Front Cover.

High Bush Cranberry (E)—Very ornamental. Its red berries resemble cranberries, which hang on until destroyed by frost. 75c each.

"Everblooming Butterfly Bush" or "Summer Lilac"

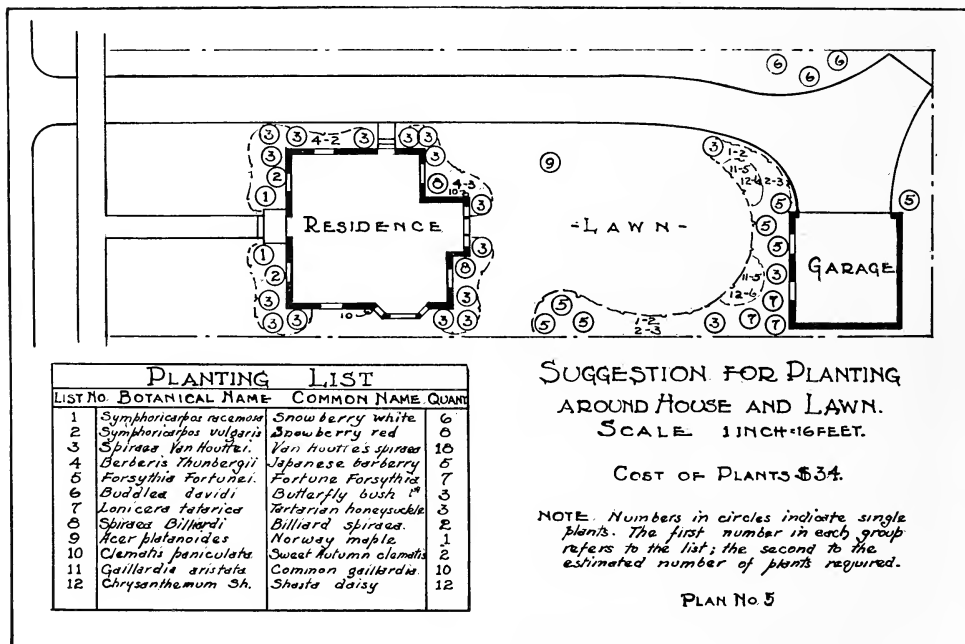

Japan Snowball

Butterfly Bush or Summer Lilac (E)—This beautiful shrub matures rapidly and produces beautiful lilac-colored flowers in profusion. Blossoms the entire summer; splendid for cutting. Should be cut back to ground every spring. 50c each.

Snowball, Japan (Viburnum Plicatum) (E)—An erect, compact shrub, blooming in June; completely covered with large balls of flowers that are as white as snow, foliage is dark green. We recommend this most highly. \$1.00 each.

See Colored Page on back of Front Cover.

Hydrangea, P. G., Tree

Hydrangea, P. G., Tree Form (E)—Same as bush, but grown in tree form with single stem. 3 ft., \$1.00; 4 to 5 ft., \$1.50.

Hydrangea, P. G.

Hydrangea, P. G. (E)—One of the most popular hardy shrubs, and also one of the finest flowering varieties. The immense heads of bloom are cream-color in bud, pure white when fully expanded, changing to pink and bronze with age, and finally to brown when frosted. Blooms in September, when very few shrubs are in flower. 50c each.

See Colored Page on back of Front Cover.

Hydrangea, Arborescens

Hydrangea, Arborescens Grandiflora Alba (Hills of Snow) (E)—This hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished. 60c each.

Barberry Thunbergii—Used as a shrub as well as hedge. See description page 49.

Kerria, Japonica (F)—A green branched, slender, graceful shrub, with drooping branches, rich, dark yellow flowers which bloom all summer. 60c each.

Quince, Japan (E)—Dark green foliage and showy, deep scarlet flowers of good size, produced singly or in masses along the branches. Much admired and often used for hedges. 75c each.

Snowball, Common (E)—A well known favorite shrub producing its snowy-white flowers in large balls in June. 75c each.

Spirea, Prunifolia

Spirea, Prunifolia (Bridal Wreath) (E)—A superb old-fashioned variety, with graceful, upright, slender branches covered with a wreath of white flowers in May. 60c each.

Spirea Van Houttei is especially attractive when planted in groups

SPIREAS

All the Spireas bloom with a riotous extravagance which makes them quite striking. Their individual style, color and habits of growth differ so markedly that a collection of varieties will insure bloom the entire season and still evade the monotony of repetition.

Spirea, Van Houttei (E)—Without doubt the finest variety in the collection. At the flowering season in May and June the plant is covered with a mass of large, white flowers, presenting a beautiful appearance. Very hardy. One of the finest shrubs in the Catalogue.

3 to 4 feet, 50c each; \$4.50 per ten.

2 to 3 feet, 40c each; \$3.50 per ten.

See Colored Page on back of Front Cover.

Spirea Anthony Waterer (F)—A dwarf variety of great beauty. Its broad, flat heads of red flowers continue in perfection all summer. 50c each.

Spirea, Thunbergii (F)—A dense, feathery bush. The foliage, which is a peculiar shade of yellowish-green, changing in autumn to bright red and orange. Flowers pure white, borne in feathery masses in early spring. 60c each.

Spirea, Aurea (Golden) (E)—Foliage green, bordered with rich golden yellow. In June the branches are covered with double white flowers. Very conspicuous. 40c each.

Spirea, Billardi (E)—Rose-colored flowers in spikes; blooms nearly all summer. 50c each.

Spirea, Bumalda (F)—A low growing bush with dark leaves. Blooms early in May. Flowers a delicate pink. Very desirable. 50c each.

WOOD'S QUALITY SHRUBS

As large or larger than can be bought from other agents at double the price.

Spirea Sorbifolia—A strong growing variety from Siberia, with leaves like those of the Mountain Ash,—elegant spikes of white flowers in July and August. It grows from 4 to 6 ft. in height. A very desirable addition to the list of Spireas. 50c each.

Syringa, Golden (F)—Pretty medium sized shrub with golden-yellow foliage. It keeps its color the entire season. Very valuable to plant with other shrubbery or in front of a porch. 75c each.

Weigela, Rosea

Weigela, Rosea (E)—An elegant shrub, with fine rose-colored flowers; of erect, compact growth; blossoms in June. 50c each.

See Colored Page on back of Front Cover.

Weigela, Eva Rathke (F)—Flowers brilliant crimson. A very attractive variety. Almost a continuous bloomer. 75c each.

Weigela, Variegated (F)—Of dwarf habit; finely variegated foliage which lasts the entire season; contrasts nicely with its rose-colored flowers. One of the best. 75c each.

ORNAMENTAL VINES

If sent by Parcel Post add 5c each; 25c per 10.

Clematis Paniculata

Clematis, Paniculata—Single, white. Of extremely rapid growth, with shining green foliage, and a profusion of flowers which are small but borne in large panicles; very popular. 40c each.

See Colored Page on back of Back Cover.

Clematis, Mme. Ed. Andre—Flowers medium size; dark red; flowering. 75c each.

See Colored Page on back of Back Cover.

Ampelopsis Veitchii (Boston Ivy)—A very desirable vine for covering walls, verandas, and tree trunks. Leaves are beautiful in Summer, turning a rich crimson in Autumn. Fast grower. 75c each.

Virginia Creeper—A fine rich green in summer, changing to crimson in autumn. Affords shade quickly and is very desirable for covering walls, verandas or trunks of trees. 50c each.

See Colored Page on back of Back Cover.

Birthwort, or Dutchman's Pipe—Brownish flowers, resembling a miniature pipe. This is an ideal vine for situations requiring dense shade. Splendid for archways or verandas. The leaves are very large, broad, closely laid and deep green; vine grows rapidly. \$1.00 ea.

Clematis, Jackmani—Large, intense violet purple flowers and remarkable for its velvety richness; free in growth and abundant and successive bloomer. Probably the best known and most popular of the large-flowered kinds.

75c each.

See Colored Page on back of Back Cover.

Clematis, Henryii—Single; the finest white Clematis; very large, fine flowers consisting generally of from six to eight sepals; grows rapidly, blooms freely during summer and autumn.

75c each.

Honeysuckle, Hall's Japan—A strong, vigorous, almost evergreen sort, with pure white flowers, changing to yellow. Very fragrant. Covered with flowers from July to December; holds its leaves until January. Best bloomer of all vines. 50c each.

See Colored Page on back of Back Cover.

Evonymus Radicans—One of the finest evergreen vines, with small, rich green foliage, and pink fruits in cells which separate and expose the scarlet arils. For covering rocky banks, rough walls, tree-trunks, etc., also for vases, baskets and borders of beds. 50c each.

Wistaria, Chinese Purple—A rapid grower, unsurpassed for beauty and picturesqueness. It is hardy and lives to a great age, doing as well in cities amid unfavorable conditions as in the country. Has long, pendulous clusters of pale flowers in May and June and in autumn. 75c each.

See Colored Page on back of Back Cover.

Wistaria Chinese White—A most beautiful and striking vine. Can be used to cover trellises, porches, etc. 75c each.

WOOD'S CHOICE ROSES

OUR ROSES ARE STRONG, TWO-YEAR, FIELD-GROWN PLANTS
WILL BLOOM THE FIRST YEAR

No class of flowers is as well or as universally loved as are Roses. They do best in a warm, sunny spot, and must be shielded from strong winds; they thrive in most any soil that is well drained.

SPECIAL PRICES ON ROSES

75c each (unless otherwise noted)

If sent by mail
add 5c per
plant

Mrs. John Laing

Mrs. John Laing—Soft, delicate pink, with a satiny sheen; fragrant. Free bloomer. One of the best light pink Roses.

Clio—Flowers large, in clusters, of fine globular form, flesh-color shaded in the center with rosy pink; growth vigorous; handsome foliage. One of the best roses.

Columbia—Unusually good American rose. Flowers large, fully double; bright lively pink in color; fragrant. Strong grower, almost thornless. \$1.00 each.

See colored Page 43.

Magna Charta—Bright pink, overspread with carmine; very large, full and fragrant, with magnificent foliage; a free bloomer.

Gruss an Teplitz—Scarlet, shading to velvety crimson, very fragrant, a full grower and most profuse bearer. One of the choicest of all Roses.

General Jasqueminot—Brilliant crimson one of the most handsome and showy roses of this color; beautiful in the bud.

Juliet—Should be planted with every collection of Roses. Color on outside old gold, inside a rich rosy red, changing to deep rose as the flowers expand. Very fragrant. \$1.00 each.

See colored Page 43.

Los Angeles—One of the most notable American garden roses. Its color is a luminous flame pink, tone coral, shaded translucent gold at base of pedals. Upright grower bearing perfect, fragrant flowers on strong stems. \$1.00 each.

See colored Page 43.

Mad. Gabriel Luizet—A magnificent large, full and fragrant flower. Soft pink with deep flesh colored center. One of the choicest.

Marshall P. Wilder—Cherry-carmine, shaded with maroon; fragrant. Vigorous and hardy. Blooms profusely long after others are out of flower.

Paul Neyron—This magnificent Rose is by far the largest in cultivation; very double; beautiful deep rose color and delightfully fragrant; blossoms abundantly through entire season.

Prince Camille de Rohan—Deep velvety crimson, nearest approach to a black rose; large, moderately full. Splendid rose.

Snow Queen (formerly Frau Karl Druschki)—White American Beauty—Vigorous and hardy. A great beauty. \$1.00 each.

See colored Page 43.

Ulrich Brunner—A Rose of beautiful form and finish, very striking for its color of brilliant cherry-crimson. Free bloomer.

Ophelia

Ophelia—Beautiful in bud and flower; blooms freely; a long keeper. Color, salmon-pink, shading to rose. A very attractive and beautiful variety. One of the best. \$1.00 each. See colored Page 43.

Duchess of Wellington—Called orange Killarney. Intense saffron-yellow, stained with rich crimson. As the flower develops it becomes deep copper, saffron-yellow. Petals large and of great substance. Free flowering and delightfully fragrant, and without a rival in this class and color. \$1.00 each.

See colored Page 43.

Mrs. Aaron Ward—Coppery-orange in bud, golden-orange when partly developed, pinkish-fawn when fully open. Color effect of whole flower is Indian-yellow. All who see it love it. \$1.00 each.

See colored Page 43.

Mme. Butterfly—Color is a harmony of pink, apricot, and gold. Flowers resemble Ophelia in form. This Rose is largely grown for cut-flowers and keeps well when cut. Fine for bedding, for if kept well cultivated and in good growing condition it will produce flowers almost continuously all summer until frost. \$1.00 each.

Red Radiance—Extra hardy, vigorous and prolific; fine grower and free bloomer. One of the best and prettiest all-around garden red roses. \$1.00 each.

See colored Page 43.

PREMIER (New). This is one of the most magnificent Roses. Color is rich, deep rose and the full, perfect blooms, of large size, are produced on almost thornless stems. A robust grower, producing splendid blooms all season. \$1.00 each.

See colored Page 43.

White Killarney—A duplicate of the charming pink Killarney, with flowers white as snow. \$1.00 each.

See colored Page 43.

Pink Killarney—Queen of the Irish Roses

Pink Killarney—Color especially beautiful, an exquisite shade of deep sea-shell pink. Buds and flowers enormous size. Petals being frequently two and one-half inches deep. Blooms profusely throughout season. \$1.00 each.

Baby Rambler—Bush, not Climbing. Flowers are large, well formed, crimson in color, and borne in clusters of 20 to 40 flowers at one time. Blooms profusely from June until frost. Very desirable for summer bedding and, when planted as a hedge, is an object of beauty. 75c each.

RUGOSA ROSES

For massing or hedge planting, the Rugosa cannot be excelled. They are attractive in the garden. Rugosas are usually free from disease.

Rosa Rugosa—An upright shrub, attaining 5 to 6 feet in height. Foliage shining dark green, deeply plicated; flowers double, red, fragrant and produced freely from June to December. 75c each.

Mme. George Bruant—Very free blooming, white variety; a strong grower and blooms continuously; flowers double. 75c each.

WOOD'S CHOICE CLIMBING ROSES

TWO YEARS OLD—FIELD GROWN

Special Price, 65c each; (Unless otherwise noted)

If sent by mail add 5c per plant; 25c per ten

Paul's Scarlet Climber

Paul's Scarlet Climber—New dazzling Red Climbing Rose. For brilliancy of color this Rose outclasses every other climbing variety in the red shades. The color is vivid scarlet which does not fade but remains bright until the flowers fall. The blossoms are medium in size, semi-double and perfect in bud form. It surpasses all bush red roses in color. Received the Gold Medal and Cup for the best new climber at the National Rose Society Exhibit. \$1.00 each.

Aviateur Bleriot—New Yellow climbing Rose, golden-yellow center; full, medium size, flowering in clusters. Very vigorous, and the finest yellow shading of its class, as well as the first of its color we have been able to offer. Only a very few two-year plants to offer. \$1.00 each.

Crimson Rambler—Vigorous, rapid grower, with large clusters crimson flowers. Makes attractive hedge.

Climbing American Beauty—A new and wonderfully beautiful Rose—One plant of this new Rose will produce twenty times as many blooms as the old American Beauty. Over nine hundred blossoms and buds have been counted on one four-year-old bush. The Roses grow on single stems and measure three or four inches in diameter. It has proved perfectly hardy, and the foliage is green and beautiful until the snow falls. It is a worthy ornament to any garden, and its beauty and fragrance will prove a lasting pleasure. If you are a lover of Roses do not fail to plant the Climbing American Beauty. \$1.00 each.

Excelsa or Red Dorothy Perkins—The most handsome of all climbers. Double scarlet flowers in large trusses. Extremely vigorous and hardy.

Dorothy Perkins—Clear shell-pink with flowers borne in clusters; full and double, with crinkled petals. The foliage stays on until winter. This is without question one of the very finest of all climbing Roses.

White Rambler—Similar to crimson; pure white.

Thousand Beauties—Superb; large double clusters; varying colors; blooms freely from June until August; strong grower; magnificent foliage.

Dr. Van Fleet—One of the newer types of Climbers, which combines absolute hardiness with flowers large as in the Tea Roses. This variety shows a mass of beautiful clusters of rich, flesh-pink buds, and when opened large, delicate flowers, with stems 12 to 18 inches long. 75c each.

Yellow Rambler—Light canary shade; clusters smaller, individual flowers larger than Crimson Rambler.

PRIDE COLLECTION

Roses shown on colored plate on Page 43 are all Hybrid-Teas, strong, healthy, 2 yr., field grown roses.

When planting Pride collection there is assurance of absolute success as they are true to name and color.

The Most inexperienced planters have won blue ribbons, cups and medals with this collection. No garden is complete without these varieties.

PERENNIALS AND BULBS

"Prize" Collection of DAHLIAS

This Prize Collection of Dahlias, wherever shown by the most inexperienced planter, has won cups, medals and ribbons.

Through a special effort on our part we have lowered the price of this prize-winning collection listed below, so that it costs less to plant these flowers and win ribbons than to pay exorbitant prices and have poor flowers.

They will be the pride of your garden and the envy of your friends.

SEE PAGE 44.

PRIZE COLLECTION

Mrs. Nat Slocombe—Bright Primrose-yellow; fine in color, splendid shape with good stems. Free flowering over a long season. \$1.00 each.

Kalif—Large majestic flower of Cactus form; color pure scarlet, produced freely on long strong stiff stems. Useful for cutting and garden decorations. 75c each.

Pierrot—Unique and striking color, of unusual grace, being composed of very long, narrow tubular petals, of deep amber color, usually showing white tips. 50c each.

Dr. Tevis—Magnificent exhibition type. Color salmon-rose suffused with old gold, shading to a golden apricot center. The immense attractive flowers are borne on long stems. Free and continuous bloomer. 75 ea.

Bianca—(Cactus) Beautiful rose-lilac, with white shadings and the great blooms are held on strong, stiff stems. \$1.00 each.

Delice—One of the most beautiful Dahlias for garden decorations that we offer. Free bloomer; flowers are large, borne on stout, stiff stems. Color bright, clear, rose-pink. 50c each.

See Colored Plate Page 44.

WOOD'S FANCY DAHLIAS

Six Good Varieties for Cut Flowers All Prize Winners

GEISHA—Probably the showiest and most attractive dahlia in cultivation. The color is a brilliant scarlet and gold with a ring of clear yellow at the center. 50c each.

Hortulanus Fiet—Flower large, of the most delicate shade of shrimp pink, the tip of each petal barely touched with gold. Entire flower has a suffusion of delicate tints of red and yellow. 50c each.

John Wanamaker—A beautiful violet-rose. Type distinct and unique. 50c each.

King of Autumn—A grand shade of autumn tints, on long stems; blooms freely. One of the best. 50c each.

Maude Adams—Early and free bloomer; white with suffusion of lavender at center. 50c each.

Rose—Rosy purple shade. Flowers erect on long stems. Popular. 50c each.

DECORATIVE DAHLIAS

Jack Rose—Great favorite, rich, old rose color. Ideal for garden and cutting type.

Jeanne Charmet—Beautiful Lilac pink.

Red Hussar—Bright red; continuous bloomer. Handsome landscape variety.

White Swan—Pure white; very popular.

Yellow Duke—Beautiful primrose yellow. 30c each; 5 (one of each) for \$1.25.

CACTUS DAHLIAS

Ambassador—Ivory white.

Countess of Lonsdale—Rich, salmon pink.

Marjorie Castleton—Very fine. Pink.

Golden Gate—One of the best yellow.

J. H. Jackson—Velvety black maroon.

Rene Cayeux—Rich geranium red.

35c each; 6 (one of each) for \$1.85.

Phlox, Fraulein G. Von Lassburg (Pure White)

Our Phlox are two-year-old, hardy; will bloom first year.

Eculaireur—Purple, with light sureole.

Europa—White with a decided crimson-carmine eye. Flowers and trusses large.

Ferdinand Cortez—Deep crimson, overlaid coppery bronze towards the center.

Fraulein G. von Lassburg—Pure white.

General von Heutz—Orange scarlet.

Jules Sandeau—Large fine free-flowering, pure pink.

Rheinlander—Beautiful salmon pink, with flowers and trusses of immense size. 30c each; 6 (one of each) \$1.50.

Iris Japan

Flowers of the richest colors, ranging from white to purple, with delicate markings and

veinings. 25c each; 6 for \$1.25.

Lily of the Valley

Lily of the Valley—Will thrive in any kind of soil and throw up its beautiful, modest, fragrant white bells. 10c each; 85c per ten.

Delphinium or Larkspur

Delphinium (Larkspur)—The flowers are of a beautiful deep blue. Their long, showy spikes of flowers persist from June until frost and furnish the most satisfactory blue to any color scheme. Light blue and dark blue. 30c each; 6 for \$1.50.

Campanula or Bell Flower

Campanula or Bell Flower—Among the most beautiful perennials in cultivation and used extensively for border plants. They possess that light transparent grace that is so attractive in a flower. Very free of bloom throughout a long season, and adapted to any garden soil. Good for cutting. Blue and white. 30c each; 6 for \$1.50.

Golden Glow (E)—Large, showy plant, blooms from early summer until frost. Flowers $3\frac{1}{2}$ inches in diameter, double, deep golden-yellow color, resembling yellow Chrysanthemums. 20c each; 2 for 35c; 6 for \$1.00.

NEW GIANT MALLOW MARVELS

Red Flowering Mallow—This new mammoth flower is striking and notable. Colors are wonderfully intensified. Flowers (10 to 12 inches across) are so vividly showy in their bloom as to demand a place in every garden. They are a delight to the eye; hardy, and come up each year from the roots, developing into a bush 6 to 8 feet high, and have beautiful foliage. 40c each; 6 for \$2.00.

Hollyhocks—Dbl. Pink, red, yellow, white and maroon. 30c each; 6 for \$1.50.

Shasta Daisy—A very hardy perennial, blooming better and more abundantly each season, and continuing to bloom for several months. The pure white flowers are from two and one-half to four inches in diameter, and are borne singly on long, stiff, wiry stems. Strong field-grown plants.

30c each; 4 for \$1.00

Digitalis or Foxglove

Digitalis or Foxglove—One of the most widely known and popular plants. The racemes are often two feet in length, containing scores of prettily-spotted thimble-shaped flowers. Very desirable for use in borders or as a background for lower growing plants. 30c each; 6 for \$1.50.

Gaillardia—One of the most gorgeous of all flowering plants. A hard center of deep maroon is thickly bordered with petals of orange and yellow, ringed by circles of crimson red and maroon. 30c each; 6 for \$1.50.

Decorations, etc.

Prices—2 for 50c; 10 for \$2.00
\$15.00 per 100

Anna Eberius—Deep Rhodamine Purple shading into a very deep bordeaux center.

Evelyn Kirtland—The flowers of strong substance, are beautiful shade of rosy pink, darker at the edges, fading to shell-pink at the center with brilliant scarlet blotches on lower petals; the entire flower showing a glistening, sparkling lustre. Very tall spike. Extra fine form and color.

Golden Measure—Large blossoms of rich golden with no markings; strong grower with very large spike of blooms. Without doubt the best yellow ever introduced.

Herada—Blooms of immense size on tall straight spikes. Intense phlox color, shaded pure purple. Large flowers.

Liebesfeuer—A solid, brilliant scarlet. Many blooms open at one time. One of the finest and richest colored in existence.

Mrs. Dr. Norton—Finest pink and cream. Among the newer varieties shown at the American Gladiolus Society's show the last six seasons. Awarded the highest honors everywhere.

Choice varieties of Gladioli, 2 for 25c; 3 for 35c; 10 for \$1.00; \$8.00 per 100.

Crimson Glow—Large open flowers of brilliant crimson. Wonderful display when in bloom.

Mrs. Frank Pendleton—Bright rose pink on white ground; a giant blotch of richest carman red on lower pedals. No grander variety in existence.

Mary Pickford—Flower and spike of delicate creamy white; throat rich soft sulphur yellow. Worthy of a great name.

Rose Ashe—Corinthian red shading into ashes of roses on outer edges; lower pedals yellow speckled with ruby; large.

Schwaben—Largest yellow Gladiolus.

E. J. Shaylor—Tall, with large bloom; flowers beautiful deep rose pink ruffled.

Prince of Wales—Delicate salmon, rich wax-like flowers; one of the first to bloom.

White Giant—Tall, immense pure white flower. Healthy strong grower.

25 (5 of a kind) for \$2.00. By mail \$2.20.

Hardy Chrysanthemums

Hardy Chrysanthemums live through the winter without protection. Bloom after all other flowers are destroyed by frost.

Autumn Glow—Brilliant crimson flowers.

Early Snow—Pure white flowers.

Quinola—Golden-yellow. Small flowers.

Rosea Morn—Beautiful shell-pink flowers.

Klondyke—Large yellow flowers.

Large 2-year plants, 25c each; 5 (one of each color) \$1.10; 10 for \$2.00.

CALIFORNIA PRIVET HEDGE

HEDGE PLANTS

NOT many years ago the only hedges to be seen were those used for defense or defining boundaries, but today they are planted extensively for ornament. Many beautiful effects are now possible, and it is needless to say that these fences of living green beautify our homes and are rapidly supplanting the old-fashioned picket and iron fences. Probably the most widely planted of the deciduous hedges is the California Privet.

California Privet—A rapid and vigorous grower. It has handsome, glossy, oval-shaped leaves which remain well into the winter. Very popular for ornamental hedges.

	Each	Ten	Hundred
9 to 12 inch; 2 Years.....	\$.10	\$.75	\$ 4.00
